

Mini Commercial Safety Camera with Night Vision

Designed to withstand the rigors of commercial driving, the **CAM-10B-P** is a durable compact safety camera packed with features to help professional fleets drive more safely than ever before. Sensitive at incredibly low light levels, the night vision capabilities of the **CAM-10B-P** make it functional at any time of day or night. An IP68 water/debris-proof rating means this camera holds up to even the harshest outdoor elements.
