

# Dual Mini Commercial Safety Camera with Night Vision

The compact **CAM-10DW-P** Dual CCD camera provides a clear view of your commercial vehicle's surroundings. The durable camera is packed with features to help professional fleets drive more safely than ever before. Sensitive at incredibly low light levels, night vision capabilities make this camera functional at any time of day or night. An IP68 water/debris-proof rating means this camera holds up to even the harshest outdoor elements.
